

Letter of Agreement
between
Bellevue College
and
Bellevue College Association of Association of Higher Education

Bellevue College Vaccine Policy and Procedures

On April 29, 2022, Bellevue College and Bellevue College Association of Higher Education completed discussions regarding College Policy and Procedure; 6460, 6460P, and 6460P2.

The following summary concludes our duty to bargain. Until the CDC or WHO declares the COVID-19 is no longer a pandemic, the College will:

- Add language to the student vaccination procedure to notify students that the college reserves the right to verify up to 15% of attestations per quarter
- Provide a quarterly update in the president's newsletter indicating that we are still doing attestations, and will share the data regarding the number of attestations completed along with exemption numbers
- Continue to conduct spot checks of student attestation records
- Update the COVID website accordingly
